## Twain Harte School District COVID-19 Safety Plan

Based on the most current [guidance](#) from the California Department of Public Health (CDPH) and in consultation with Tuolumne County Public Health (TCPH), Twain Harte School has developed the following COVID Safety plan for the 2021-22 school year. The COVID safety plan will be revised periodically as the guidance is revised.

1. Masks
  - a. Masks are optional indoors and outdoors for staff and students in K-12 school settings.
2. Student Transportation
  - a. Parents will be required to remain in their vehicles during drop off and pick up times.
  - b. Campus will open at 7:45 for students eating breakfast and 8:00 for those not eating breakfast.
    - i. The playground will open for student use at 8:00 when school staff are available for supervision.
  - c. Bus Transportation
    - i. Physical distancing will be maximized to the extent possible.
      - o When possible, students will sit one to a seat
      - o Siblings may be required to sit together
    - ii. When weather allows, windows will be down to ensure adequate ventilation of the interior of the bus.
3. Physical distancing
  - a. Physical distancing of student desks in the classrooms will be maximized to the extent possible.
  - b. Students will be expected to maintain appropriate physical distancing from others during all indoor and outdoor activities.
  - c. Common areas and staff rooms will have posted occupancy limits to avoid overcrowding.
  - d. Student restrooms will have posted occupancy limits.
4. Ventilation recommendations:
  - a. Classroom and office spaces have all been supplied with portable HEPA air filtration units.
  - b. HVAC units will be monitored and serviced regularly to ensure units are circulating air effectively.
  - c. When weather permits, doors and windows should be open to facilitate the flow of outside air.

5. Recommendations for staying home when sick and getting tested:
  - a. All students should be screened by their parents or guardian for COVID-19 symptoms before arriving on campus. Students exhibiting symptoms should stay home from school.
    - i. COVID-19 symptoms include but are not limited to:
      - Fever or chills
      - New or Worsening Cough
      - Shortness of breath or difficulty breathing
      - Fatigue
      - Muscle or body aches
      - Headache
      - New loss of taste or smell
      - Sore throat
      - Congestion or runny nose
      - Nausea or vomiting
      - Diarrhea
  - b. Staff and students with symptoms of COVID-19 infection will not be allowed to return for in-person instruction until they have met CDPH criteria to return to school for those with symptoms:
    - i. At least 24 hours have passed since resolution of fever without the use of fever-reducing medications; **AND**
    - ii. Other symptoms have improved; **AND**
    - iii. They have a negative test for SARS-CoV-2, **OR** a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) **OR** a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), **OR** at least 10 days have passed since symptom onset.
    - iv. If a student becomes sick at school, TCPH has developed a [flowchart](#) that will be used to determine the necessary response.
6. Case reporting, contact tracing and investigation
  - a. Per AB 86 (2021) and California Code Title 17, section 2500, schools are required to report COVID-19 cases to the local public health department.
  - b. Twain Harte School District COVID-19 Liaisons: Kathy Cross and Gabe Wingo
7. *All persons residing in the County of Tuolumne and who test positive for the virus that causes COVID-19 shall:*
  - a. *a. Isolate themselves for a minimum of five days after onset of symptoms or a positive test result, whichever is earlier.*
    - i. *A person may be released from isolation on the sixth day after onset of symptoms or a positive test result, if the person has improving symptoms, does not have a fever and has a negative test result obtained on the fifth day (the antigen test is preferred, but PCR is acceptable).*
    - ii. *If person has improving symptoms and is fever free, but has a positive test result, then isolation continues and they may continue daily testing until a negative test result is obtained or ten days have elapsed since onset of symptoms or a positive test result.*
  - b. *If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after ten days from the onset of symptoms or a positive test result.*

- c. *This isolation period may be extended until the person has improving symptoms and is fever free.*
  - d. *Follow additional guidance provided by CDPH at: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Guidance-on-Isolation-and-Quarantine-for-COVID-19-Contact-Tracing.aspx>*
8. *All close contacts of anyone isolated under this order will be placed into a 5-day quarantine with the following exceptions:*
- a. *Boosted or vaccinated, but not yet booster-eligible (see definitions below) persons with no COVID-like symptoms do not need to quarantine. They shall wear a well-fitting mask while around others, especially while indoors. They should test on the fifth day after their last exposure.*
  - b. *Boosted or vaccinated, but not yet booster-eligible people who do not quarantine should still monitor for symptoms of COVID-19 following an exposure.*
  - c. *If boosted or vaccinated, but not yet booster-eligible people experience symptoms, they should isolate themselves from others, be clinically evaluated for COVID-19, including SARS-CoV-2 testing, if indicated, and inform their health care provider of their vaccination status at the time of presentation to care.*
  - d. *An unvaccinated person or booster-eligible person may test on the fifth day after their exposure. If that test is negative, the person may be released from quarantine on the sixth day after their exposure. That person shall wear a well-fitting mask. That person should continue to monitor for symptoms after their exposure.*
  - e. *An unvaccinated or booster-eligible student in the K-12 school setting can do modified quarantine. Modified quarantine is permitted when an exposure occurs in the school setting where both the case and the contact are wearing face masks. During modified quarantine, students may attend scheduled classes, co-curricular events, and participate in extracurricular, but may not attend extracurricular or community events, and must otherwise be at home. In addition to the test on the fifth day, the student should test on the first day of quarantine. Quarantine is otherwise as above and requires wear of a well-fitting mask.*
9. **Hand hygiene recommendations**
- a. **Additional hand washing stations will be placed outdoors to allow for increased frequency of access to hand washing.**
  - b. **School staff will teach and reinforce washing hands, avoiding contact with one's eyes, nose, and mouth, and covering coughs and sneezes among students and staff.**
  - c. **School staff will promote hand washing throughout the day, especially before and after eating, after using the toilet, and after handling garbage, or removing gloves.**
  - d. **The district will ensure adequate supplies to support healthy hygiene behaviors, including soap, tissues, no-touch trash cans, face coverings, and hand sanitizers with at least 60 percent ethyl alcohol for staff and children who can safely use hand sanitizer.**
10. **Cleaning recommendations**
- a. **In general, cleaning once a day is usually enough to sufficiently remove any potential virus that may be on surfaces. Disinfecting (using disinfectants on the [U.S. Environmental Protection Agency COVID-19](#) list) removes any remaining germs on surfaces, which further reduces any risk of spreading infection.**

- b. Classrooms and common areas will be cleaned daily. High use areas such as student restrooms will be cleaned throughout the day as needed.
- c. Any area used by a person sick with COVID in the last 24 hours will be cleaned and disinfected prior to reopening for use by staff and students.

11. Food service

- a. Meal times will be staggered to decrease the number of students in the cafeteria.
- b. Physical distancing will be maximized as much as possible while eating (especially indoors). Additional seating spaces will be utilized outside of the cafeteria for mealtime seating when conditions allow.
- c. Frequently touched surfaces will be cleaned. Surfaces that come in contact with food will be washed, rinsed, and sanitized before and after meals.
- d. Meals will be served pre-plated.

12. Vaccination verification considerations

- a. Student vaccination verification may be utilized when determining close contacts and quarantine timelines.
- b. Staff vaccination verification will be implemented to allow staff members to remove their face covering when children are not present on campus.

13. COVID-19 Safety Planning Transparency

- a. This safety plan and any subsequent revisions will be posted on the district website and will be distributed to families in advance of the start of the school year.
- b. The COVID Safety Plan (CSP) will be reviewed and, if needed, revised a minimum of every 6 months.

14. Extracurricular Activities

- a. Field Trips may be allowed with administration verification of appropriate health and safety measures being followed by the facility.
- b. Music and Band instruction will follow the most current CDPH guidance to ensure the health and safety of staff and students.
- c. Interscholastic Sports will follow the most current CDPH guidance.

**Additional considerations or other populations**

- 1. Disabilities or other health care needs recommendations
  - a. Requirements related to provision of a free appropriate public education and requirements to reasonably accommodate disabilities will continue to apply.
- 2. Campus Visitors
  - a. Campus visitors will be limited to essential visits only.
  - b. Nonessential visitors and volunteers will be required to show proof of vaccination and follow all health screening procedures while on campus.
